# AiSP News & Highlights

## Cyber intelligence Briefings -

**Tense China-Taiwan Relations - Engagement on the Cyber Battlefield from Europe on 21 June!**

In our upcoming exclusive webinar, we will address the pressing issue of Chinese Advanced Persistent Threat (APT) groups and their escalating activities, particularly considering heightened tensions with Taiwan. Recent research conducted by CYFIRMA has revealed persistent cyberattacks from APT27, targeting at critical industries & organizations, and utilizing tactics and tools reminiscent of their counterpart, APT41.

As the prevalence and sophistication of cyber threats continue to grow, companies of all sizes are becoming increasingly aware of the risks posed by potential cyber-attacks. In response, organizations are implementing various defensive layers, mechanisms, and solutions to prevent such threats, including firewalls, IDS, IPS, and other systems that form the front line against malicious activities. Additionally, the human element – the so-called "Blue Team" – configures, maintains, and operates this infrastructure.

**Sign up for Qualified Information Security Professional (QISP) Exam before 30 June!**

The graphic features the AiSP logo at the top with the tagline 'Advance Connect Excel'. Below it, a white box contains the text 'QISP EXAM'. The main text on a dark blue background reads: 'Increase your certification profile and sign up for QUALIFIED INFORMATION SECURITY PROFESSIONAL (QISP) exam!'. It then states 'Complimentary FIRST year Membership till 31 Dec 2023' and 'Price'. Two lines of text follow: 'Sign up before 30 June to get \$50 off (U.P \$370)' and 'Sign up in bulk of 10 to get \$70 off per pax'. A yellow line of text says 'For individual sign up, please register via the qr code here' above a QR code. At the bottom, it says 'To sign up in bulk of 10, please send to secretariat@aisp.sg'.

## AiSP Events and Updates

### SOC 101 | Trust No Files 12 July 2023

Financial institutions face an ever-growing threat from incoming files. Every loan application uploaded to a web portal emailed spreadsheet or signed PDF sent to an account manager can contain malicious code that threatens the organization. All files are suspect. Ransomware campaigns and other destructive malware are running rampant as malicious actors seek out high-value targets to coerce and compromise. And the need for strong security is more critical now as the risk of file-borne threats has never been greater.

## Professional Course Development

### EC-Council's Blockchain Certifications Overview

EC-Council's blockchain certification courses are curated by experts to support the growing demand for skilled blockchain professionals.

These programs have been designed to meet the industry requirements of developers, business leaders, and fintech professionals in this rapidly growing area.

Our blockchain certification courses consist of three knowledge and competency areas: development, implementation, and strategy.

During the course, students get exposure to multiple blockchain implementation concepts and a unique guideline for sustainable and scalable blockchain development using quantum-resistant ledgers.

Considering the market opportunity and skills required for different target groups, EC-Council has launched three new blockchain programs:

- 1. Blockchain Business Leader Certification (BBLC)**
- 2. Blockchain Fintech Certification (BFC)**
- 3. Blockchain Developer Certification (BDC)**

Blockchain technology is becoming more prominent in today's digital world, and getting certified is a great way to showcase your knowledge and lend credibility to your resume.

EC-Council's expert-designed courses will provide you with hands-on experience and help you gain valuable insights that are mapped to real job roles.

**Special discount available for AiSP members, email [aisp@wissen-intl.com](mailto:aisp@wissen-intl.com) for details!**

AiSP Courses to help advance in your Career & Knowledge

## Qualified Information Security Professional Course (QISP) E-Learning

### *Prepare for QISP Certification with QISP e-Learning Programme!*

- For professionals with at least 1 year of experience in IT and cybersecurity awareness and those who will be taking on a senior technical or management role in IT enterprise governance
- Deep-dive into security principles and concepts and gain understanding for cyber defence strategies and different levels of security implementation
- Earn an internationally-recognised certification and become a security expert on Singapore and across ASEAN
