The Cybersecurity Awards 2023 Call for Nomination is now open!

In its sixth year, The Cybersecurity Awards 2023 seeks to honour outstanding contributions by individuals and organisations, to local and regional cybersecurity ecosystems. The Awards are organised by the Association of Information Security Professionals (AISP), and supported by Cyber Security Agency of Singapore and the following professional and industry associations that are part of the Singapore Cyber Security Inter Association – Centre for Strategic Cyberspace + International Studies (CSCIS), Cloud Security Alliance Singapore Chapter, HTCIA Singapore Chapter, ISACA Singapore Chapter, (ISC)2 Singapore Chapter, Operational Technology Information Sharing and Analysis Center (OT-ISAC), The Law Society of Singapore, Singapore Computer Society and SGTech.

If you know any individuals and companies who have contributed significantly to the cybersecurity industry, it is time to be recognized now! Nomination forms are attached for the submission according to the categories.

Nomination will end on **14 April 2023**. All submissions must reach the secretariat by 14 April 2023.

For more details on the awards, visit our website [here!](#)

Navigating the Bug Bounty Landscape: Best Practices and Lessons Learned 7 March 2023

Bug Bounty programs have revolutionised the way organisations approach cybersecurity by tapping into a global community of ethical hackers to identify and report vulnerabilities. As cyber threats continue to proliferate, Bug Bounty programs have become an essential part of any organisation's cybersecurity strategy.

Bug Bounty is often mistaken to be only accessible to larger companies with significant resources. However, in actuality, even small to medium businesses can participate and reap the benefits. By offering incentives to ethical hackers, Bug Bounty provides an efficient and cost-effective way to identify and remediate vulnerabilities.

Join us on 7 March, 10:00 am SGT, for an engaging workshop on Navigating the Bug Bounty Landscape, featuring expert insights from [YesWeHack](#) and [Talenox](#)

For Security Practitioners only
