

AiSP News & Highlights

(NOTICE) SingCERT Advisory on enhancing cybersecurity posture amidst the Israel-Hamas conflict

Threat actors are leveraging the recent Israel-Hamas conflict to propagate disinformation and launch cyber-attacks, such as phishing, distributed denial-of-service (DDoS) and ransomware attacks. There have also been reports of more than 100 websites in Israel disrupted, including sites belonging to the government, media as well as relief groups providing aid. Websites impersonating relief groups seeking donations have been set up to trick the public, and pro-Palestinian hacktivists have also threatened to carry out hacking operations including web defacements.

Organisations and individuals are strongly recommended to remain vigilant and put in place cybersecurity measures to fortify their online defences.

Join us for AiSP Advisory Clinic on 17 November 2023!

A promotional poster for the 'ADVISORY CLINIC' under the 'Cybersecurity Awareness & Advisory Programme'. The poster features a blue and white color scheme with a background of network lines. On the right, there is a graphic of a hand pointing at a glowing target on a puzzle piece. The text on the poster includes the event date and time '17 Nov | 1.30 PM - 5.30PM' and the location 'JustCo @ Marina Square'. It also lists the organizers 'AiSP' and 'CAAP', and the supporters 'wsg' and 'Workforce Singapore'.

As part of AiSP Cybersecurity Awareness & Advisory Programme, AiSP hope to elevate CyberSecurity Awareness as integral part of SME Business Owner Fundamentals and Establish a Self-Sustainable Support Ecosystem programme with active participation from Agencies, Business Associations, Security Communities and Vendors.

Targeted for Singapore SMEs, the CAAP aims to drive digital security awareness and readiness. Supported by CSA, Our CAAP operating committee focuses on:

1. Enhance security awareness and training
2. Create cohesive security knowledge resources
3. Offer security solutions and service support

This year AiSP will be organising our first advisory session and we would like to invite you to participate in our advisory clinic.

We firmly believe that nurturing talent and fostering professional growth for the youth and PMEs are pivotal to our organization's success in membership and mindshare. Mentorship is a cornerstone in achieving these goals, and your department plays a crucial role in the success of MCE.

For Your Mentors: We invite your mentors to come on board and to share their wealth of knowledge and expertise.

By participating as mentors in our ecosystem, they will have the opportunity to:

1. Make an Impact: Mentorship is a meaningful way to give back to the society and guide the next generation of talent.
2. Personal Growth: Being a mentor provides personal and professional growth opportunities by attending training tailored for them.
3. Networking: Mentors can expand their professional network by connecting with other mentors from diverse backgrounds and experiences.

For mentors who are interested in participating, please register below. We will work closely with you to ensure a smooth onboarding process.

We truly believe that together, we can create a dynamic and supportive environment that empowers our workers to better life, better welfare, and better job prospect.

Professional Course Development

EC-Council's Blockchain Certifications Overview

EC-Council's blockchain certification courses are curated by experts to support the growing demand for skilled blockchain professionals.

These programs have been designed to meet the industry requirements of developers, business leaders, and fintech professionals in this rapidly growing area.

Our blockchain certification courses consist of three knowledge and competency areas: development, implementation, and strategy.

During the course, students get exposure to multiple blockchain implementation concepts and a unique guideline for sustainable and scalable blockchain development using quantum-resistant ledgers.

Considering the market opportunity and skills required for different target groups, EC-Council has launched three new blockchain programs:

- 1. Blockchain Business Leader Certification (BBLC)**
- 2. Blockchain Fintech Certification (BFC)**
- 3. Blockchain Developer Certification (BDC)**

Blockchain technology is becoming more prominent in today's digital world, and getting certified is a great way to showcase your knowledge and lend credibility to your resume.

EC-Council's expert-designed courses will provide you with hands-on experience and help you gain valuable insights that are mapped to real job roles.
