The Cybersecurity Awards 2023 Call for Nomination is closing on 14 April!

In its sixth year, The Cybersecurity Awards 2023 seeks to honour outstanding contributions by individuals and organisations, to local and regional cybersecurity ecosystems. The Awards are organised by the Association of Information Security Professionals (AISP), and supported by Cyber Security Agency of Singapore and the following professional and industry associations that are part of the Singapore Cyber Security Inter Association – Centre for Strategic Cyberspace + International Studies (CSCIS), Cloud Security Alliance Singapore Chapter, HTCIA Singapore Chapter, ISACA Singapore Chapter, (ISC)2 Singapore Chapter, Operational Technology Information Sharing and Analysis Center (OT-ISAC), The Law Society of Singapore, Singapore Computer Society and SGTech.

If you know any individuals and companies who have contributed significantly to the cybersecurity industry, it is time to be recognized now! Nomination forms are attached for the submission according to the categories.

Nomination will end on **14 April 2023**. All submissions must reach the secretariat by 14 April 2023.

For more details on the awards, visit our website [here!](#)

Call for Sponsorship for AiSP IoT Day 2023 is now Open!

AiSP will be organising the AiSP Internet of Things (IoT) Day 2023 on **10 May 2023** at **Suntec Convention Centre** from **9.30am to 2pm** and we have invited **Senior Minister of State,**

Ministry of Communications and Information & Ministry of Health and Minister In-Charge of GovTech, Dr Janil Puthucheary, to be our distinguished Guest of Honour for the opening and witness the signing of MOU between AiSP & NUS on the partnership on Innovation. Our Guest of Honour will also tour the sponsors booths to hear what our sponsors have to share on IoT.

The world economic forum has recently released a report on the gaps on the Internet of Things (IoT) which also recommended the need for universal governance protocols to secure the massive, connected devices. As part of local effort to improve Internet of Things (IoT) security, Singapore has implemented the Cybersecurity Labelling Scheme (CLS) since 2020. These efforts demonstrated that the security of IoT is critical to realizing the full potential of the connected world and protecting against potential threats.

The AiSP IoT Day 2023 will invite professionals and C suites to have a day of sharing on the trend targeting IoT devices and what sort of attacks that we might be expecting in 2023. Attendees will hear from thought leaders in the industry and to network with other professionals and industry experts. The conference will also feature keynote sessions, panel discussions, and interactive booths which will provide attendees with latest trend and insights together with hands-on experience on IoT security.

This event is organized for anyone with an interest or wish to find out more or understand more on the Potential of the Connected World through IoT Security. We are expecting 150 attendees at this physical event and will be engaging CISOs, reputable services providers and vendors to present key development of Internet of Things (IoT) Security. We will be inviting Government, Industry and Academic speakers for this event.

Our Event Sponsors' generosity will show the support that our partners have in supporting the event and the collective contribution to the development of IoT. This event will also provide a platform for sponsors to showcase their innovation, technologies, and solutions.

20% discount for our Corporate Partners available on first come first serve basis!

We looked forward to your support in it and if you have any queries, please feel free to contact AiSP at secretariat@aisp.sg

AiSP Bug Bounty Workshop 13 April 2023

13 April 2023, Thursday | 9:30am to 5:00pm | SIT @ NYP

Initiation into Bug Bounty: Hands-on Workshop
Followed by a Bug Bounty Challenge

Blek
Tech Ambassador
Youth Hack

Discover Vulnerability Across the Modern Attack Surface with Exposure Management

Dick Bussiere
Technical Lead, RMG
Tenable

Build a successful pentest career with EC-Council

Judy Saw
Offensive IT Lab Area Development
Wissen (Information)

Organised by: AiSP, YESWEHACK
Supported by: SIT, Tenable, WISSEN

In this hands-on workshop, attendees will have the opportunity to get started in the world of Bug Bounty. YesWeHack will provide a pre-configured "hacking playground" – a fake online shop with common vulnerabilities and security flaws – as well as guidance on installing the hacking tools needed to identify and exploit these vulnerabilities. Working independently, attendees will use the tools and techniques discussed in the workshop to find and exploit vulnerabilities in the hacking playground. This workshop is ideal for anyone interested in learning more about Bug Bounty and gaining hands-on experience in a controlled setting. By the end of the workshop, attendees will have a better understanding of the challenges and rewards of Bug Bounty, and be better equipped to start their own Bug Bounty journey.

Registration for AVIP Membership!

**Sign up for
AVIP MEMBERSHIP**

AVIP membership is the **FIRST** in Asia to bundle the Professional Indemnity for professionals involved in cybersecurity related work, to give them greater assurance undertaking projects in Singapore and worldwide.

BENEFITS

- Recognition as a Trusted Information Security Professional. You can use the designation of **AVIP (AISP Validated Information Security Professionals Member)** as your credentials
- **Special Invite** to Exclusive Activities & Events
- AVIP members enjoy the **Professional Indemnity Coverage in Singapore and Overseas (FIRST in Asia)**
- AVIP members will be invited for key dialogue sessions with national & industry leaders for their opinions on cyber security.
- AVIP members will be invited to **represent AISP for media interviews** on their opinions on cyber security.

PRICE

Application Fee : \$486.00 (1st 100 applicants),
\$324 (AISP CPP members)
Annual Membership: \$270.00
(1st 100 includes GST)

EMAIL MEMBERSHIP@AISP.SG TO SIGN UP AND FOR ENQUIRIES

For all Ordinary Members (Path 1), we are pleased to share that AVIP Membership is now open for registration!

Visit our website <https://www.aisp.sg/avip.html> to find out more about the entitlements of AVIP Membership. Please send in your form to membership@aisp.sg and the required documents in a password protected zip file. Send us the password through our telegram at https://t.me/AiSP_SG.

Registration for NTUC Social Membership

U-Link rewards

8105 0000 0000 0001
ROXANNE LIM

NTUC Social Membership card

This membership is a rider to Association Membership. Members interested in applying for this card can do through your respective Association. You may also email to pme@ntuc.org.sg.

Benefits of Link NTUC Social Membership are as such:

- Earn & redeem Linkpoints at over 1,000 partners' outlets
- Eligible for Career Advisory services offered by NTUC U PME Centre
- Enjoy benefits and privileges from Ready for eXperience (RX) Community Member Programme offered by NTUC Club

AiSP is collaborating with NTUC to provide an exclusive membership package only for AiSP Members at \$10/year (inclusive of GST).

Some benefits include

- Career Advisory services
<https://upme.ntuc.org.sg/upme/Pages/CareerCoaching.aspx>
- Benefits and privileges from RX Community Member Programme
<https://www.readyforexperience.sg/>

Please fill in the form below and make payment if you would like to sign up for the membership.

Top Women in Security ASEAN Region Awards 2023 8 March – 30 May 2023

In its fourth year, the Top Women in Security ASEAN Region awards have officially opened for nominations to recognize women who have advanced the security industry within the ten countries of the Association of Southeast Asia Nations (ASEAN).

Nominations opened on Tuesday March 8, coinciding with International Women's Day and are scheduled to close on May 30.

To get involved and nominate visit womeninsecurityaseanregion.com. Self-nominations are welcome.

Introduction to Cyber Supply Chain Threats and the Weaponisation of Firmware 22 March 2023

CISA's list of KEV's (Known Exploited Vulnerabilities) reveals an alarming trend: vulnerabilities in the supply chain of critical enterprise devices are exploited in both statesponsored and cybercriminal operations. And of the actively exploited vulnerabilities, 1 in 4 is a firmware vulnerability.

Join Scott Scheferman, Office of the CTO - Principal Strategist at Eclipsium for a 90-minute workshop as he discusses this critical yet under-defended attack surface.

Elevating Transformation With Digital Trust 25 April 2023

As a wave of digital transformation continues, increasing data and workloads are sitting in the cloud. While this has driven efficiencies for organizations it has also increased the attack surface. Customer and business partnerships can be irreparably damaged and trust lost if data and systems are breached, so effectively securing access to data and systems, regardless of where they reside is paramount.

Join us to learn more about the importance of digital trust in your transformation journey, and how you can build confidence in the integrity of your digital ecosystem by safeguarding your systems and data.

Professional Course Development

EC-Council's Blockchain Certifications Overview

EC-Council's blockchain certification courses are curated by experts to support the growing demand for skilled blockchain professionals.

These programs have been designed to meet the industry requirements of developers, business leaders, and fintech professionals in this rapidly growing area.

Our blockchain certification courses consist of three knowledge and competency areas: development, implementation, and strategy.

During the course, students get exposure to multiple blockchain implementation concepts and a unique guideline for sustainable and scalable blockchain development using quantum-resistant ledgers.

Considering the market opportunity and skills required for different target groups, EC-Council has launched three new blockchain programs:

- 1. Blockchain Business Leader Certification (BBLC)**
- 2. Blockchain Fintech Certification (BFC)**
- 3. Blockchain Developer Certification (BDC)**

Blockchain technology is becoming more prominent in today's digital world, and getting certified is a great way to showcase your knowledge and lend credibility to your resume.

EC-Council's expert-designed courses will provide you with hands-on experience and help you gain valuable insights that are mapped to real job roles.

Special discount available for AiSP members, email aisp@wissen-intl.com for details!

AiSP Courses to help advance in your Career & Knowledge

Cybersecurity Essential Course (Basic)

For:
