BeyondTrust Webinar: The Essential Eight Compliance with BeyondTrust's Endpoint Privilege Management 1 August 2023

The Essential Eight, overseen by the Australian Cyber Security Centre (ACSC), is a prioritised list of cybersecurity risk mitigation strategies designed to harden an organisation's cyber defences against the most common attack vectors.

However, organisations often find certain aspects of the Essential Eight, such as Restricting Admin Privileges, User Application Hardening and Application Control, to be challenging.

Implementing BeyondTrust's Endpoint Privilege Management empowers organisations to efficiently meet aspects of the Essential Eight, providing a significant enhancement of their cybersecurity posture while also delivering productivity benefits.

Professional Course Development

EC-Council's Blockchain Certifications Overview

EC-Council's blockchain certification courses are curated by experts to support the growing demand for skilled blockchain professionals.

These programs have been designed to meet the industry requirements of developers, business leaders, and fintech professionals in this rapidly growing area.

Our blockchain certification courses consist of three knowledge and competency areas: development, implementation, and strategy.

During the course, students get exposure to multiple blockchain implementation concepts and a unique guideline for sustainable and scalable blockchain development using quantum-resistant ledgers.

Considering the market opportunity and skills required for different target groups, EC-Council has launched three new blockchain programs:

- 1. Blockchain Business Leader Certification (BBLC)**
- 2. Blockchain Fintech Certification (BFC)**
- 3. Blockchain Developer Certification (BDC)**

Blockchain technology is becoming more prominent in today's digital world, and getting certified is a great way to showcase your knowledge and lend credibility to your resume.

EC-Council's expert-designed courses will provide you with hands-on experience and help you gain valuable insights that are mapped to real job roles.
