

AiSP News & Highlights

Join us for South East Asia Cybersecurity Forum (SEACC) 2023
on 16 October!

ORGANISED BY

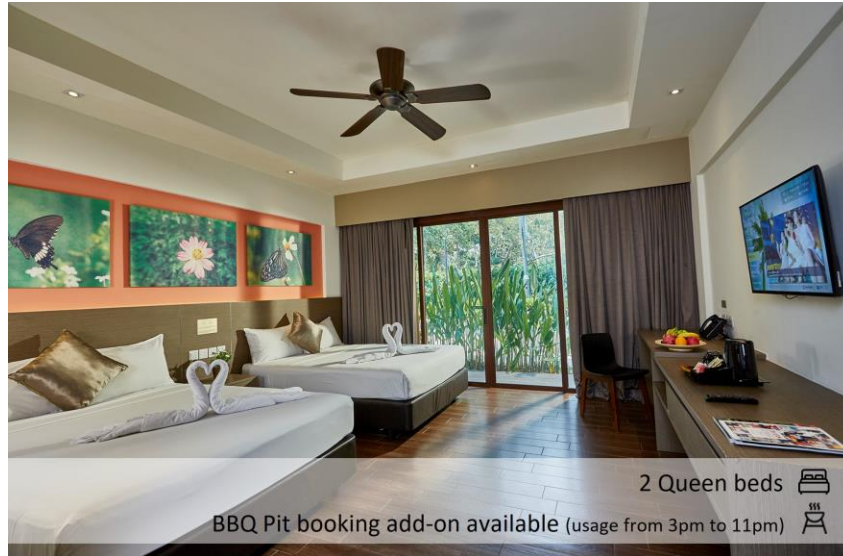

In an increasingly interconnected world, the digital landscape is more dynamic than ever before. As Southeast Asia continues to thrive in the digital age, ensuring a safe and secure cyberspace is of paramount importance. With the rise of cyber threats and vulnerabilities, the need for collaboration, knowledge sharing, and innovative solutions is greater than ever.

Join us for a pivotal forum where South East Asia Cybersecurity Consortium converge to address the pressing issues surrounding the safety of our digital ecosystem. This gathering serves as a catalyst for comprehensive dialogue, fostering cooperation, and forging a path toward a safer cyberspace for our region.

AiSP IOT Security Sharing at NTU 2023 3 November 2023

The AiSP 'IoT Day 2023' is a premier gathering of industry experts, professionals, researchers, and enthusiasts dedicated to addressing the critical challenges and exploring innovative solutions in the field of Internet of Things (IoT) security. With the rapid growth and widespread adoption of IoT devices, ensuring their security has become paramount to protect sensitive data, infrastructure, and user privacy.

This event, held in Nanyang Technological University, Singapore (NTU Singapore), focuses on "Empowering Tomorrow's IoT: Unveiling the Shield of Innovation and Igniting Lifelong Learning". NTU Singapore has recently joined the AiSP as a member of the Academic Partner Programme (APP), and is proud to partner AiSP to launch a new NTU Work-Study degree programme co-developed and co-designed with key industry partners in the information communication and technology sector.

We have invited Dr Janil Puthucheary, Senior Minister of State, Ministry of Communications and Information & Ministry of Health, to be our distinguished Guest of Honour for the event. Join us to see how these essential motivations will help to fuel innovation in the IoT sector and allow business and individuals to be prepared for dynamic industry and business changes.

APJ | Elevating Cyber Hygiene: Defending Critical Infrastructure Against Privilege-Based Attacks 10 October 2023

In today's digital landscape, cyber-attacks on critical infrastructure have become increasingly prevalent. Gartner predicts that by 2025, 30% of critical infrastructure organizations will experience a security breach that will result in the halting of an operations- or mission-critical cyber-physical system. The ramifications of such attacks span from inconvenience and financial losses to potential loss of lives.

In response to these threats, countries around the world have codified the standards that critical infrastructure owners should uphold when it comes to cybersecurity, including the remote access of IT and OT systems.

Alongside the insights and strategies shared in this webinar, you can take proactive steps to safeguard access to your critical infrastructure from the evolving cyber risks.

Professional Course Development

EC-Council's Blockchain Certifications Overview

EC-Council's blockchain certification courses are curated by experts to support the growing demand for skilled blockchain professionals.

These programs have been designed to meet the industry requirements of developers, business leaders, and fintech professionals in this rapidly growing area.

Our blockchain certification courses consist of three knowledge and competency areas: development, implementation, and strategy.

During the course, students get exposure to multiple blockchain implementation concepts and a unique guideline for sustainable and scalable blockchain development using quantum-resistant ledgers.

Considering the market opportunity and skills required for different target groups, EC-Council has launched three new blockchain programs:

- 1. Blockchain Business Leader Certification (BBLC)**
- 2. Blockchain Fintech Certification (BFC)**
- 3. Blockchain Developer Certification (BDC)**

Blockchain technology is becoming more prominent in today's digital world, and getting certified is a great way to showcase your knowledge and lend credibility to your resume.

EC-Council's expert-designed courses will provide you with hands-on experience and help you gain valuable insights that are mapped to real job roles.
