AiSP Youth Meetup – Bug Bounty
8 January 2025

AiSP will be organising a Youth Meetup on 8 Jan 2025 focusing on Bug Bounty. Through this meetup, we are expecting 80 Youths
and young professionals for where:

• Interaction and learning with fellow Cyber youths, Government Agency, Professionals and Industry Leaders through networking
• Understanding the Cybersecurity Landscape on the demand in talent, market trends, job demand and skillset required for the
industry through talks and panel discussion.
• Providing a platform for our Youths to be engaged and feedback on what they feel that they need in Cyber and how the Association
or Government can help them in it.
• Motivation from Industry Expert Leader to motivate Youth to continue their journey in Cybersecurity.

AiSP Events and Updates

AiSP AI SIG Meetup – Safeguarding the Future of Artificial Intelligence 15 January 2025

The evening will kick off with a thought-provoking presentations by our line up of speakers, setting the stage for an intellectual journey into the heart of AI vulnerabilities and defenses. Attendees will gain insights into the latest adversarial attacks on AI models, delve into the nuances of privacy preservation in AI systems, and explore ethical considerations in AI development and deployment.

The event will culminate in an interactive Q&A session, encouraging attendees to engage directly with our speakers and fostering the collaborative spirit that both AiSP and OWASP hold dear. This open dialogue will not only address current challenges but also spark discussions on future trends and potential solutions in AI security. Join us for an evening of enlightenment, engagement, and empowerment as we collectively work towards a more secure AI-driven world. Together, we'll explore how to build unassailable fortresses in the cognitive realm, ensuring that as AI advances, our defenses evolve in tandem.

AiSP DevSecOps SIG Meetup – "Learning Journey : Putting Sec[urity] in DevSecOps" 22 January 2025

AiSP DevSecOps Special Interest Group aims to provide a learning journey for students, practitioners and industry professionals with a community to share their knowledge and expertise with one another. We want to highlight the importance of having strong security built into the software development process rather than rely on external protection. While such security solutions are still required, we would also like to have software that has security 'baked in' rather than trying to patch vulnerabilities and insecurities after it is deployed. Attendees will get to hear about how to get started with DevOps and putting Sec[urity] into DevOps to become DevSecOps. We want to promote the different tools and solutions – whether they be OpenSource or Commercial tools so that the users will have a choice to decide what fits in their organization Also, we want to have organizations understand the Benefits & Pitfalls in transitioning to a DevSecOps setting. So that they will understand the commitment and the support that is needed in order to succeed. Finally, we will want to address the use of Artificial Intelligence and Cloud solutions to enhance and extend the ability to make their applications more secure.

NTUC Career Festival
10 – 11 January 2025

NTUC like to invite you to join them to kickstart 2025 with the NTUC Career Festival on 10-11 January 2025 at Sands Expo and Convention Centre, Halls B & C.

About NTUC Career Festival

The inaugural NTUC Career Festival, taking place on 10 – 11 January 2025, provides PMEs and youth with a dynamic platform to advance their careers. Supported by a diverse range of industry and education partners, the event will feature over 70 employers, offering networking and career development opportunities.

The Career Festival offers valuable opportunities not only for individuals seeking career growth but also for employers. Business leaders can benefit from practical solutions for business transformation, job redesign, and workforce upskilling through the NTUC Company Training Committee (CTC) and its associated grants. Additionally, there will be insights shared on topics such as artificial intelligence, organisational development, and more.

The Advisory Mentorship Programme 2024 – Mentorship Partner

It is important for youths to be exposed early to the cybersecurity ecosystem and receive proper guidance and support. As an independent cybersecurity association in Singapore, AiSP has been engaging youths for our initiatives and conducting mentorship programs to educate youths on cybersecurity. Together with Advisory, AiSP is committed to impart skills and knowledge to youths and create a safe cyberspace to form a strong and vibrant cybersecurity ecosystem.

New versions launched!

The question is not if, but when a cyber incident will occur?

EC-Council's Certified Incident Handler (ECIH) program equips students with the knowledge, skills, and abilities to effectively prepare for, deal with, and eradicate threats and threat actors in an incident.

The newly launched Version 3 of this program provides the entire **process of Incident Handling and Response** and hands-on labs that teach the **tactical procedures and techniques** required to effectively **Plan**, **Record**, **Triage**, **Notify** and **Contain**.

ECIH also covers **post incident activities** such as **Containment, Eradication, Evidence Gathering** and **Forensic Analysis**, leading to prosecution or countermeasures to ensure the incident is not repeated.

With over **95 labs**, **800 tools** covered, and exposure to Incident Handling activities on four different operating systems, ECIH provides a well-rounded, but tactical approach to planning for and dealing with cyber incidents.
