SHE Supports Friendship Circles: Ladies in Cybersecurity
7 December 2024

SHE Supports Friendship Circles:
Ladies in Cybersecurity

7 Dec 2024 | 2PM - 5PM
Lifelong Learning Institute

Organised By

Supported By

AiSP | **LADIES IN CYBER** | **SHE** | **women and family** | **CSA SINGAPORE** | **BridgingMinds Network** | **WISSEN**

AiSP Ladies in Cyber is excited to present SHE Supports Friendship Circles: Ladies in Cybersecurity, in partnership with NTUC U Women and Family (U WAF) and SG Her Empowerment (SHE)!

This informal session aims to foster a supportive community for female students and professionals at all stages of their cybersecurity careers. Participants will have the opportunity to connect, share experiences, and receive guidance from women mentors and industry leaders on topics such as balancing career and personal life, navigating career transitions, and overcoming challenges.

Join us to be empowered to thrive and lead in the cybersecurity industry!

Organised by
AiSP
Association of Information Security Professionals

Supported by
GOVTECH
SIT SINGAPORE INSTITUTE OF TECHNOLOGY

AiSP will be organising a Youth Meetup on 8 Jan 2025 focusing on Bug Bounty. Through this meetup, we are expecting 80 Youths and young professionals for where:

- Interaction and learning with fellow Cyber youths, Government Agency, Professionals and Industry Leaders through networking
- Understanding the Cybersecurity Landscape on the demand in talent, market trends, job demand and skillset required for the industry through talks and panel discussion.
- Providing a platform for our Youths to be engaged and feedback on what they feel that they need in Cyber and how the Association or Government can help them in it.
- Motivation from Industry Expert Leader to motivate Youth to continue their journey in Cybersecurity.

AiSP AI SIG Meetup – Safeguarding the Future of Artificial Intelligence 15 January 2025

AI SIG Meetup
Safeguarding the Future of Artificial Intelligence

15 January 2025, Wednesday

6:30pm to 8:30pm

6 Raffles Boulevard, JustCo, Marina Square
#03-308, Singapore 059594

Organised by
AiSP
Association of Information Security Professionals

Supported by
OWASP
Open Web Application Security Project

CSA
Cyber Security Alliance

The evening will kick off with a thought-provoking presentations by our line up of speakers, setting the stage for an intellectual journey into the heart of AI vulnerabilities and defenses. Attendees will gain insights into the latest adversarial attacks on AI models, delve into the nuances of privacy preservation in AI systems, and explore ethical considerations in AI development and deployment.

The event will culminate in an interactive Q&A session, encouraging attendees to engage directly with our speakers and fostering the collaborative spirit that both AiSP and OWASP hold dear. This open dialogue will not only address current challenges but also spark discussions on future trends and potential solutions in AI security. Join us for an evening of enlightenment, engagement, and empowerment as we collectively work towards a more secure AI-driven world. Together, we'll explore how to build unassailable fortresses in the cognitive realm, ensuring that as AI advances, our defenses evolve in tandem.

AiSP DevSecOps SIG Meetup – “Learning Journey : Putting Sec[urity] in DevSecOps” 22 January 2025

AiSP DevSecOps Special Interest Group aims to provide a learning journey for students, practitioners and industry professionals with a community to share their knowledge and expertise with one another. We want to highlight the importance of having strong security built into the software development process rather than rely on external protection. While such security solutions are still required, we would also like to have software that has security ‘baked in’ rather than trying to patch vulnerabilities and insecurities after it is deployed.

Attendees will get to hear about how to get started with DevOps and putting Sec[urity] into DevOps to become DevSecOps. We want to promote the different tools and solutions – whether they be OpenSource or Commercial tools so that the users will have a choice to decide what fits in their organization. Also, we want to have organizations understand the Benefits & Pitfalls in transitioning to a DevSecOps setting. So that they will understand the commitment and the support that is needed in order to succeed. Finally, we will want to address the use of Artificial Intelligence and Cloud solutions to enhance and extend the ability to make their applications more secure.

Advanced Youth Cyber Exploration Programme 16-19 December 2024

The programme aims to nurture students interested in cybersecurity careers, equipping them with both technical knowledge and soft skills to excel in the field.

This year, CSA and TIG Centre are thrilled to partner with **Div0** as our training collaborator for A.YCEP 2024. Together, we've designed a bootcamp to immerse participants in real-world cybersecurity challenges, focusing on advanced red-teaming topics such as **AI Security** and **Binary Exploitation**. With hands-on technical sessions and an exclusive Capture-the-Flag (CTF) competition, A.YCEP 2024 promises an enriching and dynamic experience to deepen participants' expertise in cybersecurity.

Day 1 (16 Dec, 9-5pm): Bootcamp Training
Day 2 (17 Dec, 9-5pm): Bootcamp Training
Day 3 (18 Dec, 9-6pm): Bootcamp Training & CTF Qualifiers
Day 4 (19 Dec, 9-5pm): CTF Finals & Prize Ceremony

The Advisory Mentorship Programme 2024 – Mentorship Partner

Mentor with us and
make a difference.

Just a few hours could transform a young person's life.

ONE HOUR A MONTH
JUNE TO SEPTEMBER 2024

Join us as a mentor:

advisory.sg/working-professionals

It is important for youths to be exposed early to the cybersecurity ecosystem and receive proper guidance and support. As an independent cybersecurity association in Singapore, AiSP has been engaging youths for our initiatives and conducting mentorship programs to educate youths on cybersecurity. Together with Advisory, AiSP is committed to impart skills and knowledge to youths and create a safe cyberspace to form a strong and vibrant cybersecurity ecosystem.

New versions launched!

The question is not if, but when a cyber incident will occur?

EC-Council's Certified Incident Handler (ECIH) program equips students with the knowledge, skills, and abilities to effectively prepare for, deal with, and eradicate threats and threat actors in an incident.

The newly launched Version 3 of this program provides the entire **process of Incident Handling and Response** and hands-on labs that teach the **tactical procedures and techniques** required to effectively **Plan, Record, Triage, Notify** and **Contain**.

ECIH also covers **post incident activities** such as **Containment, Eradication, Evidence Gathering** and **Forensic Analysis**, leading to prosecution or countermeasures to ensure the incident is not repeated.

With over **95 labs, 800 tools** covered, and exposure to Incident Handling activities on four different operating systems, ECIH provides a well-rounded, but tactical approach to planning for and dealing with cyber incidents.

Special discount available for AiSP members, email aisp@wissen-intl.com for details!
