## CyberBoost Pre-Boost Accelerator Programme

### What is CyberBoost Pre-Boost?

CyberBoost is a suite of supporting programmes jointly organised by NUS Enterprise and CSA, supported by Plug and Play, that caters to companies at different stages of growth, providing different entry points for bespoke support.

As part of CyberBoost Pre-Boost programme, you will undergo a structured 3-month programme training, with 6 months venture support, taking your idea to market and even commercialization! You would also be able to receive dedicated mentorship from industrial professionals who are practitioners, business consultation advice from NUS Enterprise experts and even CSA, as well as a space for you to work out of in order to develop your idea or product.

Additionally, workshops and training are integrated into the program to equip you with knowledge spanning across fundraising, market access and even polishing your deck to be pitch-perfect, priming your venture building and growth.

Apply now and secure your spot in the cybersecurity hall of fame!

### Debunking Myths about IMDA's Data Protection Trustmark!

The BDDB is a free programme designed to help SMEs use data to gain valuable consumer insights and to grow their business through data analytics. Previously, our BDDB programme catered only to SMEs in the B2C arena, but we have taken in feedback from the ground and upgraded the BDDB programme to cater to B2B SMEs – any SMEs, regardless of their nature of business, cannow take their first step in data analytics to enhance their business and gain that competitive advantage!

# New versions launched!

The question is not if, but when a cyber incident will occur?

EC-Council's Certified Incident Handler (ECIH) program equips students with the knowledge, skills, and abilities to effectively prepare for, deal with, and eradicate threats and threat actors in an incident.

The newly launched Version 3 of this program provides the entire **process of Incident Handling and Response** and hands-on labs that teach the **tactical procedures and techniques** required to effectively **Plan**, **Record**, **Triage**, **Notify** and **Contain**.

ECIH also covers **post incident activities** such as **Containment, Eradication**, **Evidence Gathering** and **Forensic Analysis**, leading to prosecution or countermeasures to ensure the incident is not repeated.

With over **95 labs**, **800 tools** covered, and exposure to Incident Handling activities on four different operating systems, ECIH provides a well-rounded, but tactical approach to planning for and dealing with cyber incidents.

**Special discount available for AiSP members, email aisp@wissen-intl.com for details!**
