Bug Bounty Insights and Intro to Mobile App Pentesting
7 February 2025

Curious about how to break into bug bounty hunting or mobile app pentesting? 🔍

Join us for an engaging and interactive session where our speaker, Matthew Ng, will introduce you to the exciting world of cybersecurity!

Workshop Highlights:
🎯 Overview of bug bounty hunting & mobile app pentesting
💡 Learn essential skills to kickstart your cybersecurity career
🔍 Discover real-world case studies on bug bounties, including both the challenging and rewarding moments
🛠 Tips on tools and techniques for mobile app security
🗣 Insights on the feast-or-famine nature of bounty payouts
🤝 Network with cybersecurity enthusiasts and aspiring pentesters

AiSP Events and Updates

AiSP Ladies in Cyber – Capture the Flag 2025
9 March 2025

Step into the dynamic world of cybersecurity with our Ladies' Capture the Flag (CTF) Competition, an interactive, hands-on experience designed exclusively for women. This competition offers participants the chance to engage in real-world cybersecurity scenarios, solving puzzles in areas such as cryptography, network security, and web exploitation. Through guided challenges, participants will gain practical skills, from identifying vulnerabilities to simulating attacks and defenses, providing invaluable exposure to cybersecurity tools and techniques in a supportive, collaborative environment.

Join us to unlock your potential, connect with like-minded peers, and gain confidence in tackling cybersecurity challenges head-on.

AiSP x Cyber Security Agency of Singapore (CSA) x Rapid7 Security Day Singapore 2025
11 March 2025

Join us at the **AiSP x Cyber Security Agency of Singapore (CSA) x Rapid7 Security Day Singapore** on **Tuesday, 11th March 2025**, to gain an in-depth understanding of how the cyber threat landscape will evolve in 2025.

Special Guest Speaker
Hear from Veronica Tan, Director of the Safer Cyberspace Division at the Cyber Security Agency of Singapore (CSA). Her keynote, "*From Risk to Resilience - Cybersecurity as Your Competitive Advantage,*" will explore strategies for leveraging cybersecurity to drive business resilience and success.

2025 Threat Predictions
Rapid7's CTO will reveal emerging threats and evolving attack vectors, offering actionable prevention tactics to help you stay ahead of cybercriminals and prepare for the challenges of tomorrow.

Spotlight on Emerging Fields
Discover the latest advancements in **Continuous Red-Teaming (CTEM)**, **Cyber Asset Attack Surface Management (CAASM)**, and **Attack Surface Management (ASM)** on the Rapid7 Platform. See how these cutting-edge approaches are simplifying risk and compliance management through practical, real-world use cases.

XCION 2025
12 – 14 February 2025

The 12th XCION Conference and Exhibition, themed "Pioneering Innovation in the Age of AI and Edge Technologies," planned for February 12-14, 2025, at The Prime Plaza Hotel (TBC) Sanur, Bali. This premier summit gathers global ICT leaders to explore cutting-edge advancements, offering sponsors unparalleled exposure to decision-makers driving innovation in AI, Edge, and beyond.

This is the 12th in a series popular Summit run by XCION over a decade plus with more details here at xcion.org

AiSP being an official supporting partner/organization for the summit is offering all its members a 15% off list price for sponsorships for the above summit and discounted price for the tickets. Please key in this promo code AISP12XCION when you purchase the tickets. For any enquiry on sponsorship, please email secretariat@aisp.sg

Thank you.

The Advisory Mentorship Programme 2024 – Mentorship Partner

It is important for youths to be exposed early to the cybersecurity ecosystem and receive proper guidance and support. As an independent cybersecurity association in Singapore, AiSP has been engaging youths for our initiatives and conducting mentorship programs to educate youths on cybersecurity. Together with Advisory, AiSP is committed to impart skills and knowledge to youths and create a safe cyberspace to form a strong and vibrant cybersecurity ecosystem.

New versions launched!

The question is not if, but when a cyber incident will occur?

EC-Council's Certified Incident Handler (ECIH) program equips students with the knowledge, skills, and abilities to effectively prepare for, deal with, and eradicate threats and threat actors in an incident.

The newly launched Version 3 of this program provides the entire **process of Incident Handling and Response** and hands-on labs that teach the **tactical procedures and techniques** required to effectively **Plan**, **Record**, **Triage**, **Notify** and **Contain**.

ECIH also covers **post incident activities** such as **Containment, Eradication, Evidence Gathering** and **Forensic Analysis**, leading to prosecution or countermeasures to ensure the incident is not repeated.

With over **95 labs**, **800 tools** covered, and exposure to Incident Handling activities on four different operating systems, ECIH provides a well-rounded, but tactical approach to planning for and dealing with cyber incidents.
