Identity Security Risk Assessment

Reveal Hidden Privilege Risk — Before Attackers Do

Security teams often rely on siloed IAM and PAM tools, leaving unseen paths to privilege that attackers can exploit.

The BeyondTrust Identity Security Risk Assessment (ISRA) delivers a rapid, no-obligation snapshot of your identity security posture, uncovering hidden identities, excessive privileges, and misconfigurations across your hybrid environment.

In less than 24 hours, ISRA provides:

- Visibility into true privilege and attack paths
- Identification of over-privileged, dormant, and high-risk accounts
- Actionable recommendations to reduce identity risk fast

Request your [free ISRAstrategyyour](#) today or email apjmarketing@beyondtrust.com to speak with a local BeyondTrust expert in your region.
