IBM

IBM **Innovation Week 2022**

Taking the next steps towards Zero Trust Security

Event Details

23 February 2022, Tuesday
8:15am - 12:00pm (Registration starts from 8:00am)

Grand Hyatt Singapore
10 Scotts Rd, Singapore 228211

Zero trust has been one of the most discussed Security topics in past few years and by now you'd already be comfortable with the concept. If you are looking for an opportunity to delve a bit deeper and understand how ready your organization is to adopt, what are the different phases and also the deployment challenges, this will be the perfect session for you to join.

Apart from covering the overview of IBM zero trust security strategy which can help organizations manage the risks of a disconnected business environment, allowing users enough access to the appropriate resources, we'll also deep dive by creating and exploratory session where you can not only experience some of the tool capabilities, but also bring in your expertise to look at different parts of the problem uniquely.
