01. Foreword

The Student Volunteer & Recognition Programme(SVRP) is for all students studying in Institutes of Higher Learning.

We are committed to exploring your potential as students and developing your abilities through volunteering. We believe that your potential is greater than you think, and volunteering will help you achieve it!

The objective of the Student Recognition and Volunteer programme is to recognise student volunteers' efforts and to encourage students to volunteer while building an interest in cybersecurity.

02. Everyone can participate!

AISP's SVRP provides students opportunities to contribute based on their interests. We aim to encourage volunteerism among the student group so that students like you are able to create an impact in the cybersecurity eco-system.

Contact your school Programme Chair for more information of the event.

02. How do I get started?

You don't have to be a superstar, you just have to be willing to show up and take an interest in bettering yourself!

Everyone starts by working toward their Bronze Level, which is designed to be achievable by any student. Once you've completed Bronze, you can move on to Silver if you like – and, if you really love volunteering, you can tackle Gold! – but even earning one Level will help you make progress toward your goals.

If you're still unsure about something that hasn't been covered in the SVRP Handbook, do drop us an email at secretariat@aisp.sg.
