

Signing Ceremony between Association of Information Security Professionals and Institute of Systems Science

20 August 2009 marked a significant milestone for the Association of Information Security Professionals (AISP) and the Institute of Systems Science (ISS).

The signing of the agreement marked the beginning of the co-operation for AISP and ISS in promoting security and increasing information security knowledge among the IT professionals

AISP looks forward to a mutual and beneficial co-operation with ISS.

Through this agreement, ISS will be developing a certification programme for associate level membership with the objective of determining adequacy of information security skills and competency in individuals via a qualifying examination.

Set to enrol the first batch in January 2010, ISS is working on the courseware course and certification examination and this will greatly enhance the information security knowledge among the IT professionals.

All smiles to a beneficial co-operation

(Witnesses standing: Mr Thomas Kok; Mr George Wang; Signatories seated, Mr Lim Swee Cheang and Mr Gerard Tan)
