

**Welcome Remarks by AiSP President Mr Johnny Kho at
AiSP IoT Innovation Day,
11 May, 10.30AM**

(To remove Mask before Talking)

1. Good Morning

- a. Dr Janil Puthucheary, Senior Minister of State, Ministry of Communications and Information & Ministry of Health & Minister-in-charge of GovTech Singapore
- b. Distinguished Guests, Ladies and Gentlemen

Welcome to AiSP's inaugural IoT Innovation Day.

Firstly, I would like to thank Senior Minister of State, Dr Janil Puthucheary for taking the time to grace this event.

As part of the AiSP Internet of Things (IoT) Special Interest Group, we organised the Inaugural AiSP IoT Innovation Day 2022 with the theme of Reimagining a Smart City for everyone, everywhere. The event aims focus on IoT Security Awareness for end-user, implementer and service provider.

2. Partners

This event would not have been possible without the strong support of our partners and sponsors. We would like to thank the following sponsors in order:

- 1. CISCO

2. Elastic
3. ExtraHop
4. SecureCraft
5. Vectra AI

We would also like to thank the following supporting partners in no particular order:

1. Centre for Strategic Cyberspace + International Studies (CSCIS)
2. Cloud Security Alliance Singapore Chapter
3. Cyber Security Agency of Singapore
4. Government Technology Agency
5. HTCIA Singapore Chapter
6. ISACA Singapore Chapter
7. NTUC U Associate
8. SGTech
9. Singapore Institute of Technology

3. IoT SIG

AiSP has set up a special interest group (short as in SIG) on Internet of Things which will focus on IoT Security Awareness for end user, implementer and service provider as well as driving adoption of IoT Security Best Practices and Guidelines. Our SIGs are our 'first stop' to tap on the trends, development, and

insights from the industry as well as to drive collaboration efforts within AISP as well as across other associations and chapters on similar security interest domains.

4. MOU Signing with SIT

As a step towards enhancing the cybersecurity ecosystem in Singapore, AiSP will be signing a MOU with SIT. As part of this MOU, both organisations will work together to conduct training courses to raise the professional competency of information security personnel in Singapore and share best practices in the cybersecurity community. SIT students will stand to benefit from various initiatives and events as well. These include today's AiSP IoT Innovation Day 2022, IoT events, AiSP's Ladies in Cyber mentoring programme, where female students will be mentored by AiSP's female mentors, as well as the Student Volunteer Recognition Programme for them to contribute to the ecosystem and differentiate themselves through their achievements.

5. With that, thank you and enjoy the conference.
