PROFESSIONAL DEVELOPMENT

Qualified Information Security Professional (QISP) Course

QISP course is jointly developed by AISP and the Institute of Systems Science, National University of Singapore. It is designed for entry to mid-level Information Security Professionals, and any IT Professionals who are keen to develop their knowledge in this field. At the end of the course, you will be able to:

- Undertake information security risk assessments of networks and systems and recommend risk treatment options

- Craft appropriate information security policies to address information security risks

- Manage operations security risks

- Provide advice, from the information security perspective, on compliance with Singapore laws and regulations

For more information, to sign up for the course/exams or find out about fees and funding, please go to www.iss.nus.edu.sg.
