The Cybersecurity Awards 2019

The Cybersecurity Awards 2019 & Gala Dinner will be held on 8 November 2019 at Marina Bay Sands. Details of the event are available at www.thecybersecurityawards.sg

Nominations for the awards have been extended to 1 August 2019. Please submit your nominations as soon as possible. For more details on how to nominate, please contact secretariat@aisp.sg.

We still have limited sponsorship package left. Please contact secretariat@aisp.sg if you are interested in sponsoring and celebrating this prestigious cybersecurity awards and gala dinner event.

AiSP June Activities

AiSP supported our partner ALC in their special briefing on The Power of Security Architecture on 13 Jun 19 held at Hilton Hotel. Our members had a great time attending a talk **on "The Power of Security Architecture"** by David Lynas, a globally renowned Enterprise Security Architect, Security Strategist, and Thought-Leader. He is also one of the foremost international authorities on the SABSA framework. In 2006 David was appointed as a Fellow of the British Computer Society (FBCS CITP) for "[e]xceptional leadership, eminence and seniority in the field of information security." He is also the recipient of a Lifetime Achievement Award from the Computer Security Institute – the only professional from outside North America ever to receive this honour in CSI's 33 year history. AiSP will like to thank our partner ALC for inviting our members for the talk.
AISP supported the ConnecTech Asia 2019 and Info Sec in the City 2019 held at Marina Bay Sands from 18 Jun to 20 Jun. AiSP will like to thank the organizers for having us in the event and looked forward to working together in 2020.

Cybersecurity Awareness & Advisory Programme (CAAP)

AiSP aims to promote better cybersecurity awareness and preparedness of our SME companies and individuals through CAAP seminars, workshops and focus group discussion. We believe proactive awareness and a pre-emptive approach will help businesses avoid cybersecurity breaches that may have an adverse financial and reputational impact. Therefore, participation in this programme enables companies to focus on their business growth with confidence.

CAAP workshops and focus group sessions are conducted for free by AiSP for the SMEs. Please contact secretariat@aisp.sg if you are interested.

Upcoming Workshop for AiSP Members & Public:

05 Jul 19 2.30pm to 5.30pm	AiSP Cybersecurity Awareness Workshop with the Singapore Chinese Chamber of Commerce and Industry (SCCCI)	Held at SCCCI

Student Volunteer & Recognition Programme (SVRP)

AiSP aims to encourage volunteerism amongst students in Institutes of Higher Learning (IHL) as they develop their interest in info/cyber security. Recognition of student's volunteerism efforts is based on three capabilities – Service, Skill, Leadership.

AiSP offers volunteering opportunities for students. Please visit http://www.aisp.sg/events.html and look for events that indicate "SVRP Ambassador."

PROFESSIONAL DEVELOPMENT

Qualified Information Security Professional (QISP) Course

The QISP course was jointly developed by AiSP and the Institute of Systems Science, National University of Singapore. QISP is designed for entry to mid-level Information Security Professionals, and any IT Professionals who are keen to develop their knowledge in this field. At the end of the course, you will be able to:

- Undertake information security risk assessments of networks and systems and recommend risk treatment options.
- Craft appropriate information security policies to address information security risk.
- Manage operational security risks.
- Provide advice, from the information security perspective, on compliance with Singapore laws and regulations.

For more information, to sign up for the course/exams or find out about fees and funding, please go to www.iss.nus.edu.sg

Corporate Sponsors

Academic Partners

The Association of Information Security Professionals (AiSP), formed in 2008, is an independent cybersecurity association that believes in developing, supporting as well as enhancing industry technical competence and management expertise to promote the integrity, status and interests of Information Security professionals in Singapore.

We believe that in promoting the development of cybersecurity and increasing and spreading of cybersecurity knowledge, and any related subject, we help shape more resilient economies.

AiSP aims to be the pillar for Information Security Professional & Profession in Cyber by:

- Promoting the integrity, status and interests of information security professionals in Singapore.
- Developing, supporting as well as enhancing technical competency and management expertise in cybersecurity.
- Bolstering the development, increase and spread of information security knowledge and its related subjects.
