Programs & Professional Development

Student Volunteer & Recognition Program

AiSP is embarking on a Student Volunteer & Recognition Program initiative that create a vibrant cybersecurity volunteering opportunity for students. More details coming soon.

Cyber Awareness & Advisory Program

AiSP is embarking on a Cyber Awareness & Advisory Program initiative that help companies and individuals be better aware of Cybersecurity threats and counter-threats approaches. More details coming soon.

Penetration Testing Hands-On Lab

AiSP is collaborating with NUS Cyber R&D Lab to setup a hands-on environment for students to practice or candidates preparing for their pen-testing examination.

Qualified Information Security Professional (QISP) Course

QISP course is jointly developed by AISP and the Institute of Systems Science, National University of Singapore. It is designed for entry to mid-level Information Security Professionals, and any IT Professionals who are keen to develop their knowledge in this field. At the end of the course, you will be able to:

- Undertake information security risk assessments of networks and systems and recommend risk treatment options

- Craft appropriate information security policies to address information security risks

- Manage operations security risks

- Provide advice, from the information security perspective, on compliance with Singapore laws and regulations

For more information, to sign up for the course & exams or find out about fees and funding, please go to www.iss.nus.edu.sg.
